Profile Summary

Computer Engineering undergraduate at Vidyalankar Institute of Technology with a 9.95 CGPA, passionate about AI, Software Development, Full-Stack Development, and Workflow Automation. Experienced building AI-powered applications using Python, MySQL, n8n, RAG, REST APIs, and automation workflows.

Technical Skills & Tools

- Frontend: Python, JavaScript, C, HTML5, CSS3, SQL, PHP
- AI & Automation: n8n, RAG, Prompt Engineering, OpenRouter LLM, Hugging Face Embeddings, AI Workflow Automation
- Databases: MySQL, Pinecone Vector Database
- AI/Concepts: Retrieval-Augmented Generation (RAG), LangChain
- Tools: Git, GitHub, VS Code,
- Deployment: Vercel, Netlify, Render
- Core: Core: REST APIs, API Integration, Database Design, Workflow Automation, OOP

Certifications

- Data Structures and Algorithms Using Java – Infosys Springboard (Apr 2026)
- GenAI Powered Data Analytics Job Simulation – Forage × Tata (Jun 2026)
- C Skill Up – GeeksforGeeks (Dec 2025)

Projects

FinMate AI – Personal Finance Manager — [View Website](#) [GitHub](#)

- AI finance assistant analyzing bank statements and answering queries.
- Implemented RAG, Pinecone, Hugging Face embeddings, n8n workflows, Telegram integration.

AI Hotel & Restaurant Assistant — [View Website](#) [GitHub](#)

- AI assistant recommending hotels/restaurants using n8n, Excel Sheet, REST APIs, LLM.
- Designed scalable conversational backend.

Education

Vidyalankar Institute of
Technology
B.Tech in CSE

Engineering (CMPN) CGPA: 9.95/10 |
Expected Graduation: 2029

Leadership & Activities

- Participated in hackathons.
- Build AI-powered and full-stack projects.
- Continuous self-learning in AI, programming, and databases.
